

Quality objectives of the Medical School for 2024

The results-oriented quality objectives consist of multiple elements, which are planned to be implemented in the form of projects.

1. PotePillars, Well-Being Concept/University Strategy, Regional Role and Third Mission Activities, as well as success framework:

Development of the faculty's value-preserving activities (student traditions, events, career orientation activities, development of staff's professional and personal competencies).

Responsible: Vice Dean General, Institute Directors

2. PotePillars, Learning Culture Concept/University Strategy, Internationalization and the Process of Education + Training, as well as Third Mission Activities and success framework:

Development of international collaborations (increase in the number of foreign instructors, mobility programs, continuation of education development programs).

Responsible: Vice Dean of Education, Institute Directors

3. PotePillars, Science and Innovation Concept/University Strategy, Regional Role and within the framework of R+D+I activities:

Development of faculty scientific research (increase in the number of research projects, increase in the ratio of D1, Q1 publications, initiation of research on educational topics, review of the publication quality indicator system).

Responsible: Vice Dean of Research, Institute Directors

Deadline: The planned date for achieving the quality objectives is December 31, 2024.

Pécs, December 08, 2023.

Approved by: Dr. Miklós Nyitrai
Dean
