

**PhD Program Molecular Medicine  
Medical University of Graz, Austria  
18 positions for graduate students**

**Starting October 1, 2009**

**Application Deadline: March 15, 2009**

The Medical University of Graz offers a PhD-Program in Molecular Medicine taught in English. The program provides cutting-edge education in basic principles of human diseases and therapeutics. The thesis projects will focus on various aspects of metabolic, cardiac and vascular diseases, inflammation, cancer and stem cells. They will also integrate basic, applied and clinical sciences, as well as a wide spectrum of experimental techniques. The program offers multidisciplinary training in Molecular Medicine in a productive and international environment. Successful applicants will carry out individual research projects and participate in lectures, courses, journal clubs, thesis seminars, congresses etc.

Accepted PhD-students will be employed for 3 years with a contract that includes social benefits. Applicants must hold a Master's degree in Medicine, Chemistry or Life Sciences. Good written and spoken English skills are required.
